

Welcome to the Second Annual Hawaii International Conference on Education

Aloha!

We welcome you to the Second Annual Hawaii International Conference on Education. This event offers a rare opportunity for academics and other professionals from around the world to share their broad array of perspectives. True to its primary goal, this conference provides those with cross-disciplinary interests related to education to meet and interact with others inside and outside their own discipline.

The international attendees to this conference bring a variety of viewpoints shaped by different cultures, languages, geography and politics. This diversity is also captured in the Hawaii International Conference's unique cross-disciplinary approach. The resulting interaction energizes research as well as vocation.

With Waikiki Beach, Diamond Head and the vast South Pacific as the backdrop, this venue is an important dimension of this conference. For centuries a stopping place of explorers, Hawaii has historically been enriched by the blend of ideas that have crossed our shores. The Hawaii International Conference on Education continues this tradition in the nurturing spirit of Aloha. Along with its ideal weather and striking beauty, the Hawaiian Islands provide natural elements to inspire learning and dialogue.

The 2003 conference was a great success. We hosted more than 1,200 participants representing more than 40 countries. Thank you for joining the 2004 Hawaii International Conference on Education!

East West Council for Education

Through the interchange of learning and knowledge, the East West Council for Education (EWCE) is dedicated to advancing understanding and mutual cooperation in the global community. EWCE accomplishes this ambitious goal by promoting and supporting higher education for international students, sponsoring presentations by scholars, and sponsoring events related to its mission. The EWCE focuses its efforts in a practical way with financial assistance to individuals and institutions within whom these ideals can grow.

EWCE provides vital support

In areas related to its mission, financial grants from EWCE:

- pay expenses related to fulfilling college admissions application requirements
- support presentations by experts and scholars at regional and international symposia
- provide scholarships and travel grants to international educational conferences
- support regional and international conferences, symposia and workshops

With its grants and sponsorships program, the EWCE believes it can broaden the cultural scope of the college experience. EWCE grants assist students fulfill the entry requirements of institutions of higher education in the foreign country where they wish to study. This support is directed to students of other countries wishing to study in the U.S. as well as American students wishing to study abroad. Certainly, this one-student-at-a-time, one-college-at-a-time approach to the ambitious mission of the EWCE will require many years to accomplish. Yet, each time one of our students begins his or her course of study or a scholar makes an EWCE-sponsored presentation, the road has become shorter. The result is a higher level of participation and achievement in the exchange of ideas that is a cornerstone to the success of international relations and, ultimately, world peace and multilateral prosperity. The same is true for EWCE-sponsored regional and international conferences related to this mission.

Benefits of becoming an EWCE Affiliate

The EWCE, a non-profit organization incorporated in the State of Hawaii, accomplishes its mission with no-cost assistance from EWCE Affiliate Educational Institutions. Any college, university, institute or center that supports the mission of the EWCE can become an EWCE Affiliate.

The concept of EWCE affiliation allows both the EWCE and the Affiliate Educational Institution to multiply the effectiveness of efforts at East-West relations by building a dynamic interactive network. This networking is designed to be of significant mutual benefit to all EWCE affiliations. As an EWCE Affiliate, the institution, its students and its scholars are eligible for grants – and all benefit. Without incurring any expense, the Affiliate opens a new international portal to prospective students and program participants, while EWCE gains exposure to its mission of enhanced East-West relations. Instructions for becoming an EWCE Affiliate appear on our website at www.ewce.org.
