Welcome to the Eighth Annual
Hawaii International Conference on Education

Aloha!

We welcome you to the Eighth Annual Hawaii International Conference on Education. This event offers a rare opportunity for academics and other professionals from around the world to share their broad array of perspectives. True to its primary goal, this conference provides those with cross-disciplinary interests related to education to meet and interact with others inside and outside their own discipline.

The international attendees to this conference bring a variety of viewpoints shaped by different cultures, languages, geography and politics. This diversity is also captured in the Hawaii International Conference’s unique cross-disciplinary approach. The resulting interaction energizes research as well as vocation.

With Waikiki Beach, Diamond Head and the vast South Pacific as the backdrop, this venue is an important dimension of this conference. For centuries a stopping place of explorers, Hawaii has historically been enriched by the blend of ideas that have crossed our shores. The Hawaii International Conference on Education continues this tradition in the nurturing spirit of Aloha. Along with its ideal weather and striking beauty, the Hawaiian Islands provide natural elements to inspire learning and dialogue.

The 2009 conference was a great success. We hosted more than 1,250 participants representing more than 35 countries. Thank you for joining the 2010 Hawaii International Conference on Education!

The 2011 Hawaii International Conference on Education will be held January 4 – 7, 2011 at the Hilton Hawaiian Village Beach Resort & Spa in Honolulu, Hawaii. Please check our website in early March for more details!

The Manitoba First Nations Education Resource Centre:

The Manitoba First Nations Education Resource Centre (MFNERC), established in 1999, was given a mandate by the Chiefs of Manitoba to provide second and third level education services to fifty-five First Nations schools in Manitoba.

The MFNERC facilitates a community education process based on First Nations needs, priorities and education plans. The process is First Nations driven and authority remains with the First Nations.

The MFNERC is actively involved in promoting community development by providing training and coordinating opportunities for families and other community members. Professional development training is also provided for school board members, administrators, teachers and teaching assistants.

The MFNERC is committed to working with Manitoba First Nations in the development of partnerships to ensure the highest standards of education are achieved in First Nations schools.

The MFNERC acknowledges education as a shared responsibility among all stakeholders and promotes and encourages First Nations involvement in all aspects of the development and implementation of education change.

Blueberry Hill Books:

Blueberry Hill Publications was founded in the summer of 2004 with the purpose of creating leveled books for guided reading instruction. The Blueberry Hill catalogue of books presently contains 76 titles from Level 1 (A) to Level 16 (I) and two teachers’ guides containing blackline masters for center activities. New titles are currently under production. They will be available in 2009. Blueberry Hill is a real place and the location of several of the Fluffy and Charlie storybooks. The forest covered hill is sprinkled with blueberries every July. Fluffy likes to eat the blueberries right off the blueberry plants.

Pat Harrison is the main author and sometimes illustrator of the Blueberry Hill storybooks. She has taught at all elementary levels during the past 25 years, including grade one and a full day kindergarten. She has been a grade one reading specialist for the past nine years. She enjoys working with classroom teachers to help create guided reading programs that ensure success for every student. Pat has conducted inservices on how to make guided reading and literacy centers work in the classroom at divisional, provincial and national conferences.

Keynote Speaker

Friday
1/8/2010
Room: Kona Moku Ballroom (Marriott)

Keynote Speaker:

Colin Kippen
Native Hawaiian Education Council

Colin Kippen is a Native Hawaiian who has worked as Senior Counsel to the United States Senate Committee on Indian Affairs, as the chairman of the Federal Native American Graves Protection and Repatriation Act Review Committee, as the Chief Judge of an Indian tribe in the Pacific Northwest, and as the Deputy Director of the Office of Hawaiian Affairs in charge of advocating for and protecting the exercise and practice of Native Hawaiian rights.

Mr. Kippen now serves as the Executive Director for the Native Hawaiian Education Council, whose mission it is to assess and coordinate programs for Native Hawaiians across the education spectrum and to improve the lives of Native Hawaiians in the process.

Mr. Kippen will describe the holistic and culturally-aligned system developed by the Council and the Native Hawaiian community to ‘capture and tell the stories of success and achievement’ of a diverse and wide-ranging set of Native Hawaiian education programs from a distinctly indigenous perspective. He will show how the evaluation framework of culturally-aligned educational program indicators and the on-going development of culturally-responsive measurement tools have the potential to help bridge the gap between traditional Hawaiian epistemology and pedagogy and more traditional Western education and evaluation systems. He will discuss how these approaches have the potential to revolutionize existing educational strategies for Native Hawaiian students, both children and adults, and will demonstrate how this Native Hawaiian indicators system will assist programs to better understand how they can collaborate to more effectively develop and share best practices in reaching and teaching Hawaiian students.

Unique Native Hawaiian education programs will be featured on each of the seminar days as examples of the kinds of cutting edge, place-based, and culturally-aligned programs that have been developed in Hawai‘i under the federally-funded Native Hawaiian Education Act. These programs’ staff will describe how program indicators describing the traditional Hawaiian concepts of mauli (being and becoming), ‘ike (knowing and doing) and kuleana (contributing) are foundational in the education of Native Hawaiians.

Mr. Kippen’s presentation is entitled Ha‘i Moʻolelo: Capturing and Telling our Stories of Success and Achievement from Our Perspective as Native Hawaiians.

Friday
1/8/2010
Room: Kona Moku Ballroom (Marriott)

Keynote Speaker:

Colin Kippen
Native Hawaiian Education Council

Colin Kippen is a Native Hawaiian who has worked as Senior Counsel to the United States Senate Committee on Indian Affairs, as the chairman of the Federal Native American Graves Protection and Repatriation Act Review Committee, as the Chief Judge of an Indian tribe in the Pacific Northwest, and as the Deputy Director of the Office of Hawaiian Affairs in charge of advocating for and protecting the exercise and practice of Native Hawaiian rights.

Mr. Kippen now serves as the Executive Director for the Native Hawaiian Education Council, whose mission it is to assess and coordinate programs for Native Hawaiians across the education spectrum and to improve the lives of Native Hawaiians in the process.

Mr. Kippen will describe the holistic and culturally-aligned system developed by the Council and the Native Hawaiian community to ‘capture and tell the stories of success and achievement’ of a diverse and wide-ranging set of Native Hawaiian education programs from a distinctly indigenous perspective. He will show how the evaluation framework of culturally-aligned educational program indicators and the on-going development of culturally-responsive measurement tools have the potential to help bridge the gap between traditional Hawaiian epistemology and pedagogy and more traditional Western education and evaluation systems. He will discuss how these approaches have the potential to revolutionize existing educational strategies for Native Hawaiian students, both children and adults, and will demonstrate how this Native Hawaiian indicators system will assist programs to better understand how they can collaborate to more effectively develop and share best practices in reaching and teaching Hawaiian students.

Unique Native Hawaiian education programs will be featured on each of the seminar days as examples of the kinds of cutting edge, place-based, and culturally-aligned programs that have been developed in Hawai‘i under the federally-funded Native Hawaiian Education Act. These programs’ staff will describe how program indicators describing the traditional Hawaiian concepts of mauli (being and becoming), ‘ike (knowing and doing) and kuleana (contributing) are foundational in the education of Native Hawaiians.

Mr. Kippen’s presentation is entitled Ha‘i Moʻolelo: Capturing and Telling our Stories of Success and Achievement from Our Perspective as Native Hawaiians.
